

Greenwood School District 50
Applicant Release of Information

The Greenwood Promise is a promise that every student who graduates from a Greenwood County public/private/accredited homeschool the opportunity to enroll at Piedmont Technical College and receive at least an Associate's Degree or Certificate. The scholarship is "last dollar" and will pay remaining tuition and fees after State and Federal scholarships and grants beginning with the June 2017 graduating class.

The scholarship award is based on a sliding scale of years of residence in Greenwood County. The program is designed to provide maximum benefit to long-term Greenwood County residents. A desired outcome of the program will be to encourage families to make early decisions to live in Greenwood County, to enroll their children in Greenwood County schools, and to maintain that enrollment through graduation.

I authorize the Greenwood Promise to share my grant award eligibility and award amount with Greenwood Promise eligible schools.

I authorize the schools in which I enroll to share my financial aid and academic progress information, and my campus email address with the Greenwood Promise, for the purposes of calculating and awarding my annual Greenwood Promise grant and evaluating my academic progress for continued eligibility for the Greenwood Promise program.

I authorize the Greenwood Promise program to share data from my grant record with institutions with whom the grant has confidentiality agreements for research and evaluation purposes. (Individual grant recipient names are not shared.)

A signed copy of this form must be returned to your child's school before your child can become eligible for consideration for the Greenwood Promise. If you have questions regarding the Greenwood Promise, please contact your child's school counselor.
